YOGITA SAWANT

Sangli, Maharashtra | +91 9209225870 | yogitasawant2004@gmail.com | LinkedIn | Github

Web Developer with hands-on experience in HTML5, CSS3, React.js, MYSQL, and MongoDB. Skilled in building responsive web applications, designing database-driven solutions, and integrating REST APIs. Strong understanding of relational databases and passionate about developing scalable and user-friendly applications.

SKILLS

- **Web Development:** HTML5, CSS3, React.js, Responsive Web Design, Node.js, REST APIs, JWT Authentication
- **Database:** MySQL, SQL Server, MongoDB, Database Design, CRUD Operations, Joins & Normalization
- **Tools:** Git, GitHub, Postman, Visual Studio Code, Vercel, Render
- **Programming:** Java, Python, Object-Oriented Programming (OOP), Data Structure and Algorithms
- **Soft Skills:** Adaptability, Continuous learning, Persistence, Problem Solving, Communication and coordination

EDUCATION

Warana University, Kolhapur – Master of Computer Applications **Sept 2025 – Jul 2027**
Relevant Coursework: Web Technologies, Advanced Database Management Systems, Big Data Analytics
Shivaji University, Kolhapur – Bachelor of Computer Applications **Jul 2022 – Mar 2025**
Relevant Coursework: Web Development, Data Structures & Algorithms, Software Engineering, Computer Networks

EXPERIENCE

WEB DEVELOPER INTERN | WEBMOBI360 **July 2025 – July 2026**
- Contributed to the development and successful delivery of 5+ web application projects, building responsive, reusable React.js interfaces that improved usability, and performance across desktop and mobile devices for end users.
- Integrated 10+ REST API endpoints to fetch, process, and dynamically render data on the frontend, enabling smooth communication between frontend and backend systems and significantly reducing manual data-handling errors.
- Collaborated closely with a team of 4-5 developers throughout the software development lifecycle, contributing to feature implementation, debugging, and code reviews to ensure reliable, maintainable, production-ready code.

PROJECTS

Task Manager Web Application
- Technologies: HTML5, CSS3, React.js, Node.js, Rest APIs, MySQL
- Developed a responsive Application for creating, organizing, updating, and tracking tasks through an intuitive interface.
- Implemented CRUD operations, and interactive dashboards for real-time task monitoring and productivity tracking.

Housing Society Management System
- Technologies: C#, DOTNET Framework, Windows Form, SQL Server
- Designed relational databases for member records, maintenance payments, complaints, notices, and parking allocation.
- Wrote SQL queries, joins, and data retrieval operations to improve record management and reduce manual effort.

INTERNSHIP PROJECT

Cerebro – AI-Powered PDF Question Answering System
- Technologies: HTML5, CSS3, React.js, Node.js, Rest APIs, MongoDB Atlas
- Developed an AI-powered PDF question-answering system for efficient information retrieval from documents.
- Leveraged semantic search, document processing, and JWT authentication to deliver accurate and relevant responses.

CERTIFICATIONS

- Web Design (HTML & CSS) – Disha Institute
- Getting Started with React.js Components – Simplilearn
- SQL and Relational Database – Cognitive Class
- Microsoft SQL Server 2022 Essential Training – LinkedIn
- Java Object-Oriented Programming Language – LinkedIn
- ChatGPT for Data Science and Machine Learning – Infosys Springboard

LEADERSHIP & ACHIEVEMENTS

- MCA Class Representative and Technical Coordinator, SACA committee, MCA Department (2025 – Present)
- Volunteer Coordinator for a National – Level Paper Presentation Event
- Pragati: Path to the Future – Cohort 9 | Infosys Springboard – Ongoing
